

A Guide to Domotz Licensing

Billing & Licensing:

Domotz can be billed in either a month-to-month subscription or a 60-month license; licensing is implemented using a monthly subscription or in a 60-month license. This structure gives integrators and networking professionals the flexibility to manage their customers' networks most efficiently.

Licensing can be purchased directly from Luxul in a 60 Month Lite license* or from Domotz as a month-to-month subscription.

60-month Lite license = 5 years (*Formally known as a "Lifetime License," this 5 year license (60 months of service) is a non-transferable hardware license).

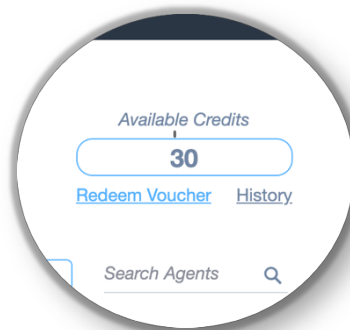

*This license provides the Lite features of a Domotz license.
